AESCULAP AKADEMIE®

# **FOCUS:** VALVE – MICS TRAINING DAYS

Innsbruck, February 25 – 26, 2027

**FOCUS Valve MICS Training Days** is a skills-acquisition education program of the Focus Valve Platform and the Medical University of Innsbruck in cooperation with Aesculap Akademie based on the experience of more than 15 years Focus Valve minimally invasive valve surgery training courses.

The objective of this program is to provide individualized intensive training opportunities for MICS mitral valve procedures on explanted pig hearts under the guidance of by experienced tutors.

The **wetlab training will be complemented by intensive OR hospitations** to observe totally endoscopic or other minimally invasive valve procedures.
Up-to-date 3D imaging with the Aesculap Einstein Vision® videoendoscopic system is available on each wetlab working station as well as in the OR.

At **FOCUS Valve MICS Training Days** participants train extensively the most important techniques of mitral valve repair and replacement on explanted pig hearts.

2 surgeons will work on one station tutored by a senior minimally invasive surgeon.
MICS Training Days comprise Modules II and III of the FOCUS Valve educational program.

We are looking forward to welcoming you in Innsbruck!

## Program directors

Nikolaos Bonaros, Can Gollmann-Tepeköylü, Daniel Höfer, Ludwig Müller, Michael Grimm

## Learning objectives

Wetlab training on explanted porcine hearts
Handling of long shafted instruments for endoscopic surgery
Direct vision minimally invasive mitral valve surgery (MIMVS)
Totally endoscopic MIMVS with use of the Einstein Vision® 3D system
Ring annuloplasty, leaflet resection and repair, artificial (PTFE) chordae implantation Mitral valve replacement
Case selection and preoperative imaging

## PROGRAM

### DAY 1 – FEBRUARY 25, 2027

| | |
|---|---|
| **08:15 - 08:30** | **Introduction and Training outline - Group formation** |
| **08:30 - 12:30** | **Group A: 2 Live cases in the OR**<br>**Group B: Hands-on 3D Endoscopy Wet-lab** |
| **12:30 - 13:30** | **Lunch** |
| **13:30 - 16:30** | **Hands-on 3D Endoscopy Wet-Lab** |
| **16:30 - 18:00** | **Lectures**<br>**Introduction to minimally invasive mitral valve surgery**<br>**Technology and tools for MIMVS**<br>**Imaging**<br>**Instruments**<br>**Perfusion**<br>**Techniques for minimally invasive mitral repair** |

### DAY 2 – FEBRUARY 26, 2027

| | |
|---|---|
| **08:30 - 12:30** | **Group B: 2 Live cases in the OR**<br>**Group A: Hands-on 3D Endoscopy Wet-lab** |
| **12:30 - 13:30** | **Lunch** |
| **13:30 - 16:30** | **Hands-on 3D Endoscopy Wet Lab** |
| **16:30 - 17:30** | **Q&A** |

Irrespective of our intentions to provide live demonstrations of minimally invasive mitral valve procedures, the clinical program (live surgeries) may be subject to clinical needs. Surgical procedures may be changed according to urgent requirements.
